March 25, 2026

Dear Chair Cole and Ranking Member DeLauro:

I am requesting funding for the Addition of Ladder Pipe High Water Stream Device to Chicago Fire Department Trucks in fiscal year 2027. The entity to receive funding for this project is the Chicago Fire Department located at 3510 S. Michigan Ave, Chicago, IL 60653. The funding would be used to meet a critical need by the CFD for ladder pipe high water stream devices. This project is an appropriate use of taxpayer funds because it supports essential public safety services by enabling the Chicago Fire Department to replace aging engines and trucks. Upgrading this equipment ensures that firefighters have reliable and modern resources to respond effectively to emergencies, which directly benefits the community by improving response times and enhancing overall safety. Investing in this project demonstrates a commitment to the well-being of residents and the efficient use of public resources for critical infrastructure.

The project has a Federal nexus because the funding provided is for purposes authorized by 42 U.S.C. 5305(a)(1).

I certify that I have no financial interest in this project, and neither does anyone in my immediate family.

Sincerely,

Mike Quigley
